2018 PATH SUMMIT

CALL FOR PRESENTATIONS

DEADLINE: JULY 13, 2018

The Partnership for Automation and Artificial Intelligence in Healthcare (PATH) is seeking presentation proposals for its inaugural summit. Proposals will be accepted in two categories:

1. Presentations addressing successful efforts to use artificial intelligence, robotics or automation in the delivery of clinical services. Services may be integrated into existing healthcare institutions or offered by new entrants in healthcare and delivered in-person, onsite or remotely via telemedicine. Success is defined as either resulting in measurable improved outcomes or measurable reduced costs compared to normal services. The presentation should include a description of the technology used and how integration or service delivery was implemented including lessons learned and the measurable outcomes.

2. Unique and extraordinary research into new uses of artificial intelligence, robotics or automation in healthcare that have promising aspects to radically transform health delivery on the 3-5-year horizon. Presentations must include descriptions how this approach is distinct and on what basis success would be measured and expected.

The proposal should be no more than 200 words. In addition, please include the presenters name, contact information and bio or vita.

Successful presenters will provide either a 10-minute oral presentation or a poster presentation at the meeting. AV, including a microphone and power point projector will be available. Selected presenters will have their abstracts published in the Healthcare Transformation Journal, the official Journal of PATH.

Submission of your abstract includes a commitment to attend and pay the full registration fee for the meeting, if selected.

There is no restriction on who might submit a proposal. However, presentations that are purely commercial in nature, including presentations that advertise a specific product or commercial service, will be rejected. Anyone interested in promoting a product or service should consider PATH expositions and sponsorships.

**To submit - send your proposal to info@pathhealth.com,
as the subject line put "Summit Proposal." Indicate if the presentation is
for Category 1 or 2 and intended as an oral or poster presentation.**

SUBMISSION DEADLINE: JULY 13, 2018
